

## Energy Management System - Energy Management Policy Statement.

The Chief Executive Officer and Management Team of Augustus Martin are committed to improving the organisation's energy performance through the implementation of an energy management system based on ISO 50001.

Augustus Martin is committed to responsible energy management and will endeavour to practice good energy management throughout the business.

Augustus Martin shall: -

- Comply with all applicable and legal requirements in relation to its energy use;
- Improve energy efficiency as a continuous improvement process;
- Assure the availability of information and resources to meet our objectives and targets;
- Incorporate energy efficiency as a key component for new equipment, major renovation and new design;
- Provide a framework for setting and reviewing energy objectives and targets;
- Promote and communicate energy saving awareness to all levels within the organization.

The company will maintain a constant and continuing interest in energy performance applicable to Augustus Martin Limited and its activities.

This Policy will be revised when:

- There are major changes in the size and nature of the business;
- Changes in relevant legislation;
- Following any significant energy incident.

To ensure that this policy remains up to date, it shall be reviewed annually and updated as necessary.
